Smartphones as lifesaving devices

- Smartphones act as lifesaving, essential medical devices for a large number of children, for example the 40,000 children (approx) in the UK with Type 1 Diabetes.
- These families and children do not have a choice and cannot delay smartphone ownership, relying on such devices to safely navigate their childhoods.

EVERYONE'S GOT ONE BECAUSE EVERYONE'S GOT ONE

Most parents believe smartphones are harmful, yet almost all children have them by Year 7

Because resisting peer pressure becomes almost impossible when children's social lives migrate online

The powerful network effects of smartphones and social media mean parents and young people feel like they have no choice

**So what exactly
is the problem?**

When children first started getting smartphones in the early 2010s we didn't understand their impact.

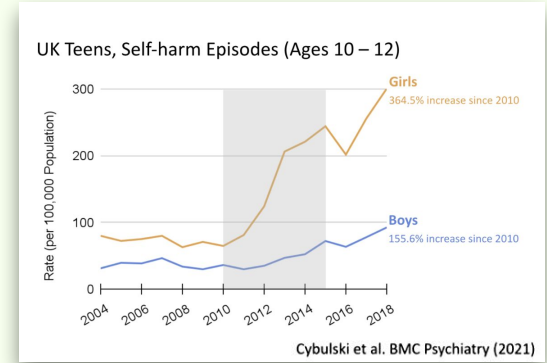

Now we do, and the evidence is overwhelming.

SMARTPHONES ARE FUELLING A MENTAL HEALTH CRISIS

Rates of depression, anxiety, self-harm and even suicide among teens have all dramatically spiked globally since 2010 – when children started getting smartphones.

A 2023 global study of 27,969 young adults from Sapiens Labs showed that the younger they got their first smartphone, the worse their mental health today.

3x

Teens with problematic smartphone-use are twice as likely to have anxiety and three times as likely to have depression

King's College London, 2024

1 in 5

UK 16 to 18 years olds say that their social media has made them feel that 'life is not worth living'

Parentkind Poll, 2024

53%

The number of children referred to emergency mental healthcare in England has soared by 53% in three years

Royal College of Psychiatrists, 2024

SMARTPHONES EXPOSE YOUNG PEOPLE TO HARMFUL CONTENT

Having unrestricted access to the internet in your pocket creates a gateway to extreme content and viewpoints that we'd never dream of exposing children to in real life.

Hardcore pornography, extreme political views, sexualised and violent imagery, trolling and material promoting suicide, self-harm and eating disorders have become part of the fabric of modern childhood.

51%

of UK 11-13 year-olds
have seen hardcore
pornography online

75%

of UK 15 year olds
questioned had been
sent beheading videos

Digital Childhoods, children's commissioner report, 2022

90%

of girls and 50% of boys
say they are sent
unwanted explicit content

Ofsted review of sexual abuse in schools, 2021

SMARTPHONES APPS ARE ADDICTIVE BY DESIGN

Tech companies spend billions on making apps and devices as addictive as possible because ‘maximising engagement’ is the fundamental objective of their business model.

So it’s little wonder that many children are routinely ‘spending six, seven, eight hours a day on social media – often more’ (Ofcom, 2024).

46%

of teens say they use their phones “almost constantly”

Pew Research Centre, Aug 2022

29 hours

Per week is the average British 12-year-old now spends on their smartphone

Childwise Monitor Report, 2021

2 in 3

of 11-17 year olds ‘often’ or ‘sometimes’ find it difficult to put down their phone

Common Sense Media, 2023

SMARTPHONES ARE FUNDAMENTALLY CHANGING CHILDHOOD

Smartphones are experience blockers, distracting children from engaging in the real world activities and connections that are crucial to healthy childhood development.

The opportunity cost to childhood is profound. The average UK 12 year-old now spends over four hours per day on their smartphone, displacing the kinds of activities that have shaped childhood for millennia.

43%

of US teenagers waking minutes are spent on screens

Gitnux Marketdata Report, Jan 2024

30%

Since 1975, the daily average time children spend playing outdoors has fallen by 30%, while screen-based activities have risen 23%

Zach Rausch - Mullan 2019

65%

The daily average time that teenagers spend with friends has plummeted by 65% since 2010

American Time Use Study

“When kids are on their phones all day, it’s not just what they're doing on the phone that matters — it’s what they’re not doing. They’re missing out on crucial experiences that help them grow into healthy adults.”

Dr Jonathan Haidt

Professor of Social Psychology, NYU

~Susie

In the last decade there have been 70% less outdoor accidents and 93% more incidents of self harm in children... as a GP I can promise you it's much easier to mend a broken bone than a broken mind.

Dr Susie Davies, founder of Papaya Parents, citing NHS DATA

SADLY, WE COULD GO ON

SLEEP

Bedtime use of smartphones doubles children's risk of poor sleep

BULLYING

84% of bullying now takes place on a device

DISTRACTIONS

On average teens are bombarded by 237 smartphone notifications a day

ARGUMENTS

55% of parents say their child's smartphone use causes big family arguments

ROAD SAFETY

Mobile phone distraction is a major cause of road accidents involving children

CRIME

500 children a day were mugged in 2020 in the UK, almost all for smartphones

It's little wonder that many of the people who created this technology keep it away from their kids

STEVE JOBS

“We don't allow the iPad in the home. We think it's too dangerous for them”

EVAN SPIEGEL

Grew up without a TV and credits his own success on that tech restriction. Limits his kid to 1.5 hours screen time per week

BILL GATES

Didn't allow his 4 children smartphones or their own computers until they were 14

**Parents are in an
impossible position**

BECAUSE OUR 'CHOICE' ISN'T REALLY A CHOICE AT ALL

Either we...

Give our children access to a product that we know to be harmful.

Or we...

Risk alienating them from their peers at a crucial stage of their development.

If parents choose to delay giving our children smartphones, and instead gave them brick phones until at least the end of Year 9, the peer pressure instantly reduces.

Saying no can feel impossible when you're acting alone. Acting collectively makes it infinitely easier.

This is what Smartphone Free Childhood is all about.

It's a growing movement of 150,000 parents in the UK who are coming together to support each other in delaying access to smartphones and social media for their children.

It's coordinated via a national network of WhatsApp communities where parents can learn more about the issue, find other like-minded parents and support one another.

WE'RE NOT ANTI-TECH, WE'RE PRO-CHILDHOOD

Technology has immense benefits, and young people should be able to enjoy the opportunities it creates – when they're ready and when it's safe to do so.

But childhood is precious and fleeting. All children should have the opportunity to learn, develop and grow free from the addictive-by-design algorithms and age-inappropriate content of social media and smartphones.

OUR RECOMMENDED APPROACH

- Simple phone until at least the end of Year 9
- Delay social media until 16
- Internet & WhatsApp access via a shared family computer
- Track with an Airtag if you want to know where they are

SMARTPHONE

SOCIAL MEDIA

SIMPLE PHONE

FAMILY COMPUTER

PARENTAL CONTROLS AREN'T THE SOLUTION

- Even the most tech-savvy parents struggle to manage parental controls
- Some apps require updates to hundreds of settings to make them age appropriate
- Even if your child's phone has parental controls, their friends may not so they may be sent inappropriate content regardless

58%

of teens say they've never had controls put on their phone by parents

(Parentkind poll, May 2024)

47%

of teens with controls in place say they have bypassed them

(Parentkind poll, May 2024)

And teens find multiple ways to bypass controls:

Performing a factory reset

Using VPN software

Hacking the WiFi router

Memorising your passcode

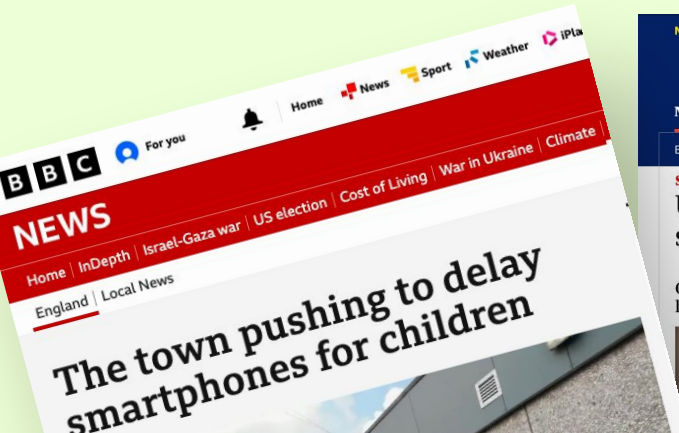

THE MOVEMENT IS GROWING ACROSS THE UK

**We're all trying
to do the best
for our children**

WE'RE IN THIS TOGETHER

Navigating the fast changing world of smartphones and social media is complex.

This stuff's tricky, the evidence is evolving fast, and every family is different.

Wherever you sit on the spectrum, or whatever decisions you've made for your children, we respect your position.

Every family will come to their own conclusions; we just want to open up a conversation about these issues.

It's a new frontier of parenting, and we're all in it together.

**Let's keep
talking**
